LRN CARES

SUSTAINABILITY

5 Point Program

1. Adopting to sustainable practices:

We continuously adapt to sustainable practices on our daily operations. We have installed "Sky Tunnels" which provides natural light to our multipurpose hall during daytime. We Also have changed our regular lights to LED that consume less electricity.

2 Sustainability model of excellence in community:

Our very own 6g% Single Origin Couverture. We are committed to fostering a sustainable cacao supply chain that generates consistent employment opportunities for farmers with strong prohibition of all forms of forced and exploitative labor especially from children.

3. Reforestation commitment:

We involve our staff in our drive to sustainability. We have regular tree planting activities that help our local forest be restored and have more seedlings to grow. We also have our own pocket garden and our cacao garden that serves as a learning paradise for our foundation students.

4. Technological initiatives for social environmental change:

Our commitment to be environment-friendly drives us to continuous innovations and initiatives. We've shifted our power from traditional electricity to renewable solar energy. The factory in the Philippines' rooftop is fully covered with solar panels to achieve this. These solar panels generate eco-friendly renewable energy and eliminates more than 12 million pounds of carbon footprint from our operations.

5. Pro-active and sustainable commitment:

We have 2 sub departments in our factory that focuses on our sustainability efforts.

CHARITY

LRN Foundation

La Rose Noire Foundation will be the leading benefactor in serving and uplifting the lives of the underprivileged youth of our society to become highly productive and promoting competitive individuals in the educational and industrial community.

Our mission is to promote the upliftment and well-being of the poor and marginalized sectors of communities in or around its area of operations by extending grants to the youth in support of its charitable, educational, and social welfare programs.

larosenoirefoundation.com

CORPORATE SOCIAL RESPONSIBILITY

Build a School Program

Continuing La Rose Noire's commitment to its Corporate Social Responsibility Program, numerous activities have been done to help the underprivileged in nearby communities.

One of these life-changing initiatives is the "Build A School Program" aimed at constructing school buildings, classrooms, and facilities for indigent school children. La Rose Noire believes that providing a comfortable and conducive environment for learning should not only be for a privileged few.
